Height cm/in.	Width cm/in.	Depth cm/in.	Vol. l/cu.in.	Weight g/oz.
30/11,8	20/7,9		2/122	80/2,8
38/15	25/9,8		4/244	130/4,6
44/17,3	36/14,2		10/610	160/5,6

- handy alternative to aluminum or plastic bottles or containers
- can be rolled into a small package when not used
- can be used as pillow to sit on or for your head (fill with water or air)
- ideal as weight balance for paragliding
- can be used as diving buoy when filled with air
- only suitable for storage or transport of water
- do not store water longer than required
- do not fill with boiling water (maximum temperature 60°C / 140°F)
- store only absolutely dry with valve completely open when not in use
- mechanical cleaning with brush and neutral soap
- cleaning inside with tablets for artificial dentures such as „Steradent“, „Kukident“ or „Corega Tabs“
- can be combined with outdoor hand filters for water purification (e.g. Katadyn, MSR)
- can be combined with ORTLIEB drinking tube (art. code N43)
- handle with buckle can be fixed e.g. around a branch etc.

**ATTENTION:** Do not expose drinking water too long to the heat. Change the water as often as possible. Fill with drinkable, non-alcoholic, sugar-free and non-acid fluids only! Clean the valve regularly!
